Subject: 31337-001 ELECTRICAL  
PANEL PLACARD INCORRECTLY  
IDENTIFIES LEFT AND RIGHT  
MAGNETO POSITION

The 31337-001 electrical panel placard supplied in the 923-PLACS placard kit incorrectly identifies the left magneto position and the right magneto position of the ignition switch.

The correct identification of the ignition switch positions reading clockwise is OFF - RIGHT - LEFT - BOTH - START.

This does not effect engine operation with the exception that the placard reads left when the right magneto is checked and the placard reads right when the left magneto is checked.

A revised 31337-001 electrical panel placard is now in preparation and will be mailed to all Christen customers to whom the 923 or 923-L kit has been delivered.
