Subject: REVISED HARDWARE FOR
ATTACHING PUSHRODS IN
MANUAL STEPS A-5 AND B-8

The hardware used in Steps A-5 and B-8 to attach the 30713-502 pushrod and the 30713-503 pushrod to the control stick levers in the torque tube assembly have been changed. A shorter bolt and thin washer and nut are now used to eliminate the possibility of interference of the bolt with the inside surfaces of the torque tube in positions of full deflection.

The required three 50067-006 bolts, 50070-019 thin washers and 50241-001 thin nuts are being mailed to all Eagle builders to whom the 907 kit has been shipped.

Enclosures:

3 ea 50067-006 Bolts
3 ea 50070-019 Washers, thin
3 ea 50241-001 Nuts, thin
