Subject: EXISTING PLACARDS REVISED
AND NEW PLACARDS ADDED TO
923 COVERING AND PRE-
FINISH KIT

The 30351-001 canopy jettison placard which is located on the right side canopy channel near the canopy jettison handle has been revised so that instruction 4 reads: "Pull handle full aft to bend tab".

The 31125-001 check list placard which is located on the rear surface of the front seat back cover has been revised to include under the "Before take-off" heading a "Canopy: closed and locked" reminder.

The three new placards described below are included in the 923 manual Revision 5 which contains instructions for mounting the placards.

A 30362-001 opening handle placard is positioned on the exterior left side of the canopy skirt at the canopy opening handle location.

A 30363-001 lock handle placard is positioned on the exterior of the left side panel at the canopy locking handle location.

A 30364-001 jettison handle placard is positioned on the red painted jettison handle with the placard facing the rear seat pilot.

These placards are white with red characters. A second version of each which is clear with white characters is available on request.

The two revised placards and the three new placards are being mailed to all Eagle builders to whom the 923 or 923-L kit has been shipped.
