Service Letter

Date: 2-26-2002

Subject: Pitts S-2A & S-2B Shoulder Harness Optional Installation

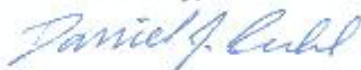

Models Affected:

- Pitts S-2S S/N 1000-1014 & 3000-3023
- Pitts S-2A S/N 2000-2275
- All Pitts S-2Bs equipped with shoulder harnesses that attach to pilot and passenger seatbacks

To those Pitts owners specified above,

This service letter has been issued to notify the owners of Pitts S-2S, S-2A, and some S-2Bs of the availability of an optional installation kit for the original factory-installed shoulder harnesses. These kits were designed to raise the upper attach points of the straps 10" in front and 12" in the rear, increasing freedom in the area of the neck and upper torso for greater mobility and comfort. These kits consist of the hardware necessary to upgrade to the current-style Pitts shoulder harnesses. Aviat kit No. S-2 516 is the shoulder harness assembly for the pilot seat and is priced at \$580.00. Kit No S-2 517, priced at \$175.00 is the shoulder harness assembly for the passenger seat. If you are interested in purchasing either or both of these kits, please contact Aviat Aircraft at (307) 885-3151.

Cordially,

Daniel J. Ruhl
Mechanical Design Engineer
